

# DAILY SWING TRADING GUIDE

OCTOBER 24, 2016

Ryan Belknap

Happy Monday everyone! Another great session is in the books and if you were not there to hear it, we will be extending the live sessions and the Daily Trading Guide for a whole additional week. This was scheduled to be the last week but we are having too much fun and so as they say, let the good times roll. We have two new trades opening tomorrow and two trades closing. Also, LLY was closed today. Please see the note below and note the stops that have been published. We are adhering to those stops. Have a wonderful evening and we will see you Wednesday!

## Today's Picks

Symbol	Strategy	Trade	Confirmation
NUS	T3-S2	Long	Higher Low Pivot
NUS has been in a beautiful uptrend and is now offering us a new higher low entry opportunity.			
SNH	T3-S3	Long	Support Bounce

SNH has been trading in a range for the past few months and has come down to test the ranges support close to \$21.25. We are looking for it to move up into the \$22-\$23 zone.
